

# CashMatters Project

## Implementation Report

Date: December 28, 2025

Status: All Requirements Completed

### 1. Global Style: Link Behavior

#### Requirement

- Internal links open in the same tab
- External links open in a new tab

#### Implementation

A JavaScript handler was added to all pages that automatically detects external links and sets the appropriate target attribute.

Code Location: All template files (base.html, about.html, news.html, support.html)

```
document.querySelectorAll('a[href^="http"]').forEach(function(link) {  
    if (!link.href.includes(window.location.hostname)) {  
        link.setAttribute('target', '_blank');  
        link.setAttribute('rel', 'noopener noreferrer');  
    }  
});
```

**Status: COMPLETED**

## 2. About Page

### Requirement

Upload provided code on the about page.

### Implementation

The About page has been fully implemented with the following sections:

1. Hero Section - Title "About Cash Matters" with description
2. Our Mission Section - Mission statement with image
3. What We Do Section - Three cards: Research, Advocacy, Education
4. Why Cash Matters Section - Four key points
5. Our Values Section - Three value cards (Inclusion, Choice, Resilience)
6. Our Impact Section - Statistics display
7. Join Our Movement CTA
8. Footer with social links

File Location: cashmatters/templates/about.html

**Status: COMPLETED**

### 3. News & Articles Page: Category Filtering

#### Requirement

When clicking on categories (Studies, Key Fact, Podcast), the big featured blog post "Measuring What Really Matters: Inside the Compound Cash Value Index" should be hidden.

#### Implementation

Conditional rendering was implemented to show the featured article only when no category is selected OR when the "News" category is active.

Code Location: cashmatters/templates/news.html (lines 117-165)

```
{% if not active_category or active_category == 'news' %}
<!-- Featured Article - Only shown for News -->
...
{% endif %}
```

Behavior:

- Click "News" tab: Featured article VISIBLE
- Click "Studies" tab: Featured article HIDDEN
- Click "Key Fact" tab: Featured article HIDDEN
- Click "Podcast" tab: Featured article HIDDEN

**Status: COMPLETED**

### 4. Support Cash Page: Digital Assets

#### Requirement

Upload section elements (Logos, Banners, Fact Cards, Post Cards, Videos) from the old website.

#### Implementation

The Support page includes a tabbed interface with all digital assets:

##### 4.1 Logos Tab

Six logo variations available:

- CM-Logo-Linear-Black.png
- CM-Logo-Linear-White.png
- CM-Logo-Stacked-Black.png
- CM-Logo-Stacked-White.png
- CM-Badge-Black.png
- CM-Badge-White.png

##### 4.2 Banners Tab

Two banner designs with download links.

##### 4.3 Fact Cards Tab

Nine fact card images (CM-Fact-Card-01 through CM-Fact-Card-10)

##### 4.4 Post Cards Tab

Four postcard images (CM-Postcard-01 through CM-Postcard-04)

##### 4.5 Videos Tab

Three embedded Vimeo videos:

- Freedom Matters
- Choice Matters
- Cash Matters

File Locations:

- Logos: static/images/support/logos/
- Fact Cards: static/images/support/fact-cards/
- Post Cards: static/images/support/post-cards/

**Status: COMPLETED**

### 5. Single Blog Page: Image Display

#### Requirement

Make sure the main image is showing properly with no cut-off.

#### Implementation

The blog details page uses object-fit: contain to ensure the full image is displayed without cropping.

Code Location: cashmatters/templates/blog-details.html

```
{% image page.page_header_image width-1200 as header_img %}  

```

Technical Details:

- width-1200: Generates image with 1200px width
- object-fit: contain: Shows entire image without cropping
- max-height: 600px: Limits maximum height

**Status: COMPLETED**

## CashMatters Project Report

### Summary

All five requirements have been successfully implemented:

#	Requirement	Status
1	Global link behavior	COMPLETED
2	About page with provided code	COMPLETED
3	News page category filtering	COMPLETED
4	Support page digital assets	COMPLETED
5	Blog page image (no cut-off)	COMPLETED
